

# Megan Ellman

Motivated junior software engineer with a strong foundation in JavaScript, React, and RESTful APIs, and a background in SaaS operations and process optimization. Recently completed a fullstack web development bootcamp at UC Berkeley with hands-on experience in building, testing, and deploying responsive applications. Skilled in problem-solving, debugging, and collaborating across teams to deliver maintainable code. Excited to grow under mentorship and contribute to building impactful, user-centered financial software.

## EDUCATION

### Fullstack Web Development Bootcamp

2023

#### University of California, Berkeley

Learned principles of web development, CI/CD pipelines, writing sustainable code, and clean architectures.

**Languages:** HTML5 | CSS3 | JavaScript (ES6+) | JSON | SQL | NoSQL

**Frameworks & Libraries:** React | Bootstrap | Node.js | Express.js | jQuery

**Databases & APIs:** MySQL | Sequelize | MongoDB | Mongoose | RESTful APIs | GraphQL | Server-Side API

**Tools & Technologies:** Git | GitHub | AJAX | Insomnia / Postman | Day.js | Unit Testing (Jest) | Problem Solving | Pseudocode | REST API Design

#### Projects:

A task manager using HTML, JavaScript, Express, JSON, Bootstrap, and jQuery.

A command-line web application using Node.js, object-oriented design, Inquirer, JSON data storage, HTML generation, and Jest testing.

A responsive currency exchange dashboard using JavaScript, an ExchangeRate API, and localStorage.

### B.A. in Communication and Minor in Writing

2020

#### University of California, Santa Barbara

## EXPERIENCE

### ClickUp

01/2021-05/2022

#### Talent Development Specialist, Onboarding Coordinator

San Diego, CA

Coordinated onboarding programs that integrated 900+ new hires at a hyper-growth tech startup.

Designed and facilitated leadership and onboarding training.

Proactively created and implemented a mentorship program in collaboration with department heads, enhancing employee connection, engagement, and retention.

Increased onboarding satisfaction scores through the collection and analysis of feedback data.

Streamlined onboarding process by analyzing each cross-function team pain points, developing a new program, gaining stakeholder alignment, testing and updating- resulting in a smooth onboarding process.

#### Client Success Specialist

Delivered high-quality service by resolving client issues efficiently and collaborating with internal teams.

Maintained detailed records of client history and resolutions, supporting data tracking and team improvement.

### Volunteer Advocate & Social Media Coordinator

09/2019-01/2020

#### Domestic Violence Solutions

Santa Barbara, CA

Executed educational presentations at local high schools, equipping students with knowledge of signs of abuse and accessing resources.

## TECHNICAL DEVELOPMENT

### Daily Coding Challenges

2025

Proactively joined a daily coding challenge and pairing program for transitioning military members — invited as a civilian participant. Solved algorithmic problems, debugged code collaboratively, and shared engineering approaches.
